#### **SYNOPSIS OF THE PROJECT**

"Online Examination System" is an application that designed and developed for students and lecturers. The system helps students to take examination online. It helps also lecturers to upload the questions and answers in the database and they can see the students who fail or pass the exam. The project is divided into two parts one containing the administrator part and other containing the user part Administrators of this Online Exam System website can add question, modify question, delete question and generate certificate also.

Admin Module: Login form, add question, modify question, delete question. generate certificate. In user part user can register himself/herself thorough a registration form. After that his/she will able to log in to the system and able to appear in the exam. User Module: Registration form, Login form, exam form, result form.
